

12 Months Associate Software Developer Internship

PATSD2605

PLEASE READ CAREFULLY BEFORE CONTINUING.

ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students in the UK. We work closely with our host companies to ensure the positions provide students with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: ESPA is free for students. Accommodation, utility bills, TV Licence, Internet Access and UK commuter travel to the place of work will be paid for by the host company. This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 600-700€ per month.**

There is no salary over and above the benefits offered, unless specifically stated.

The Host Company

This company is a global pioneer in the use of web-based solutions for digital pathology. Specialising in image management and the rapid analysis of tumor tissue, the company provides innovative software for use in drug discovery research, clinical sectors, biomarker analysis and education.

Role

The successful candidate will work as part of the existing research and development team, developing web-based products based on medical informatics and imaging technologies in medicine; the company offers a friendly, dynamic and inclusive working environment with like-minded, talented and passionate individuals. Opportunity to join a rapidly expanding organisation involved in ground-breaking technology that has the potential to dramatically impact on medical science through cancer research detection.

Duration

6 months

Location

Belfast is the capital and largest city of Northern Ireland. Very dynamic city with a population of 300 000.

Languages

English should be B2/C1

Start date

As soon as possible.

Tasks

- The research and development of novel image analysis solutions for the automated identification of cancer.
- Working as part of a team to build software applications from initial specification to final deployment and acceptance.
- Rapid prototyping of new ideas.
- Functional, performance and stress testing of the product.
- Automating tests using testing tools and scripts
- Manual testing of the product.
- Other tasks required by Management.

Personal Skills

Essential:

- Currently studying towards an Undergraduate Degree in Computer Science or a related discipline.
- A strong academic record (equivalent to 2:1 standard or higher).
- Knowledge of .Net.
- Good problem solver.

Desirable:

- Knowledge of the agile programming methodology and a continuous integration development environment
- Experience of writing and building unit and integration tests

Extra benefits

As most of European grants are no longer than 6 months the host company has agreed to offer also a payment in the second half of the internship (months 7 to the end) in addition to the regular benefits.

How to apply

STEP 1) Please, register with us at <http://www.espauk.com/students/register-with-us>
