

## **Spend your ERASMUS semester at the Deggendorf Institute of Technology and combine it with practical experience in Germany**

Students can study either in English or German; Tourism Management, General Business and General Engineering are study programmes which were developed specifically according to the needs of our international exchange students, thus, they are taught in English. Besides, we offer many other top German degrees among six faculties. After the study semester (either at our main campus in Deggendorf or our European Campus in Pfarrkirchen) students complete a single semester internship directly at the Deggendorf Institute of Technology, or receive support to find an internship position in a partnering German company. We support with (preparatory or regular) German language courses, intercultural training and soft skill workshops, and simplify VISA and work permits.

This unique programme offers students the opportunity to become more culturally aware, especially regarding the German lifestyle, and implement gained soft as well as hard skills back in their home country.

The geographical location of our university is in beautiful Bavaria, a state which offers a variety of attractive leisure time activities along with fascinating historic places and traditional cafés, restaurants and markets. There are plenty of sport activities you can undertake, from horseback riding over canoeing on the Danube River to hiking in the famous Bavarian Forest. Bavaria offers a relaxed and recreative environment, and you will be stunned by how beautiful Deggendorf shines throughout all four seasons. Yet, the town is located very centrally, meaning that you can reach other cities like Passau, Regensburg and Munich easily by train within a minimum period of time.

### **What do I need to know about this programme?**

As a European exchange student, you can apply to receive an **ERASMUS+ subsidy** during your study abroad and your internship semester. If there are enough funds available, the International Office may also provide a scholarship additionally (*please clarify with the International Office beforehand*).

### **What are the prerequisites to apply?**

You are eligible to apply for the programme if you ...

- Have already completed at least two semesters at your home university
- Have at least B1 language level in the language of instruction (English or German) and
- Are enrolled at one of our partner institutions during the whole duration of your stay at DIT

## **Did we wake your interest?**

If you are ready for a new adventure and want to be part of this tailor-made programme, please send the following application documents **at latest six months prior** to your desired entry semester to [nadine.kappl@th-deg.de](mailto:nadine.kappl@th-deg.de):

- Curriculum Vitae/ resume
- Motivation letter
- Current transcript of grades
